NONE OF HIS HISTORIES RECORD THE GREAT CRIME OF '73.

### Greensburg Citizens Turn Out to Give a Social Reception to the Hon. James A. Mount.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Sept. 3.-The Car Works Sound-money Club last night celebrated the raising of a two-hundred-foot pole with a big meeting, in which several of the city clubs took part. Before the speaking Mr. George Cox, brother of Mr. Louis Cox and Mr. Robert Cox, who own the car works, said he had always been a Democrat, but from this time on he would be found voting the Republican ticket. He did not believe in supporting a ticket on a platform that is as ridiculous as it would be to declare that paint is milk and feed it to babies. Mr. E. S. Holliday, of Brazil, was the speaker of the evening. The carworks men applauded loudly when he spoke on the tariff question. He referred to the fact that Ridpath, the Populist-Democratic candidate for Congress in this district, who has been writing communications newspapers about the crime of 1873, did not refer to that crime in his history, and did not think there had been a crime until after the political hubbub was raised about it.

#### RECEPTION TO MOUNT. Greensburg Society Turns Out to Honor the Republican Candidate.

Special to the Indianapolis Journal. GREENSBURG, Ind., Sept. 3.-Hon. J. A. Mount, Republican nominee for Governor, after addressing the people of Bartholomew, Jennings and Decatur counties at Hartsville, was given a reception here at the McKinley Club rooms from 7 to 8 o'clock to-night. Great crowds thronged the rooms to pay their respects. After the reception Senator Mount attended the pipe organ concert given by Professor Hansen and wife, of Indianapolis, at the First M. E. Church, it being the first recital on the new organ placed in that church. While

here Mr. Mount was also entertained by his cousin, Thomas Mount, The Republical campaign in this county opened in earnest this week. Speeches were made at Milford, Tuesday night, by Hon. W. W. Lambert, of Columbus, and D. A. Myers, Hon. W. R. Pleak and Rev. J. W. Potter at Sardinia; E. E. Roland and William Eberhardt, at Lett's Corner; Hon. W. W. Lambert and R. P. Hamilton, at Adams; Thomas F. Davidson dams: Thomas E. Davidson and John D Wallingford, at Burney last evening. All meetings were well attended, much en-thusiasm being manifested,

## RAILROAD CLUB OF 607.

The Logapsport Organization Includes 201 Former Democrats.

Special to the Indianapolis Journal. LOGANSPORT, Ind., Sept. 3.-The railroad men's sound-money club, organized in this city two weeks ago, has grown with amazing rapidity. Its president announced to-day 607 members, 201 of whom were Democrats. The sentiment in the club is largely in favor of voting for McKinley, and it is thought that the vote will be almost unanimous for the Republican leader. The club had an interesting meeting Monday night, when Hon. Lucius B. Swift addressed a crowd of two thousand. Hon. W. D. By-num and Hon. M. E. Ingalls have been invited to address the club. E. J. Kearney, the president of the club, is chief train dis patcher in the Panhandle offices. He is an enthusiastic McKinley man, though a life-long Democrat. It is his opinion that the thousand, will be cast for sound money.

#### Rousing Colored Meeting. Special to the Indianapolis Journal.

MARION, Ind., Sept. 3 .- The Democrats of this county have been trying to make political capital by hiring Jack Veuters, an eccentric colored man, to make speeches, thinking to disgust his colored brethren, so that they would desert the Republican party, which the Democrats gave out was behind Veuters. The Republicans called off two of his meetings, but last night decided to let one of the advertised meetings be held at Hackelman, which is near Weaver, a colored settlement. The Republicans decided to take charge of the meeting, and fully 1,200 peo ple gathered. When the time for the speaking arrived Chairman Hamaker drove up with Gurley M. Brewer, a young colored orator from Indianapolis, and took charge, and the meeting was the most en thulastic held in that vicinity in years. Fully two hundred Democrats were present, who had gathered to make fun of When they found that they were caught in their own trap they took their medicine. A few on the outside wanted to make trouble, and insisted that poor Jack be given a chance, but older heads interfered and prevented trouble. Mr. Brewer spoke to a large crowd in the McKinley to-night. The colored people then decided to organize a McKinley club and a committee was appointed to report at the next meeting.

## Letter from Herr Most.

Special to the Indianapolis Journal. BLOOMFIELD, Ind., Sept. 3,-The Democrats here have been claiming that Herr Most, the notorious Anarchist, was for Mc-Kinley, and they have been making much ado about the matter. The Indianapolis Sentinel of July 21 also devoted considerable space to prove that fact. A few days ago Mr. W. B. Maddock, editor of the Bloomfield News, wrote Herr Most and this following reply has been received from ites.

Gentlemen-I am an Anarchist and consequently no politician. I do not vote nor advocate voting, either for McKinley nor for Bryan; (two big humbugs), but at the same time I am an educated man and. therefore, convinced that gold is the preper for so-called reforms. (Bogus.)
"Yours respectfully, JOHN MOST."

### Good Work in Lagrange County. Special to the Indianapolis Journal

LAGRANGE, Ind., Sept. 3.-C. C. Gilhams, auditor of this county, spoke for one hour and a half to an enthusiastic audience of five hundred sound-money Republicans at Topeka, Ind., Monday. He was McKinley Club is thoroughly growing at Topeka, having a fine hall neatly decorated and a good marching club. They attended the meeting with band and torches. There was an old-fashion Republican meeting at Lima, Ind., Tuesday night. Col. J. S. Dodge spoke for two hours in the park to three hundred people. The McKinley Club of this place is enthusiastic and working for sound money and protection.

He was given the closest attention, and his remarks were frequently cheered 'Old Shady' quartet accompanied him and rendered several new topical songs that caught the fancy of the crowd. The Ad-vance brass band was also in attendance.

### Spooner Speaks at Franklin. Special to the Indianapolis Journal

FRANKLIN, Ind., Sept. 3 .- The McKinley Club held a meeting at the courthouse to-night which was largely attended. Hon. S. H. Spooner, of Indianapolis, spoke. He was given close attention, and as he brought out clearly point after point in favor of sound money he was as warmly applauded. The Republicans of this city and county are hard at work, and have the satisfaction of seeing their cause gainng ground each day. Captain Worreli is filling a series of engagements in the county this week. In one or two iccalities the Populist sages attempted to corner him with a flood of questions, but in every case he was more than equal to the emergency Next week Congressman Overstreet will hold several meetings in the county.

### Clubs in Wabash County.

Special to the Indianapolis Journal. WABASH, Ind., Sept. 3 .- Capt. G. W. Swadley and A. H. Plummer, of this city, continue the work of organizing Republican clubs in this county, and the ease with which members are secured shows clearly the drift of sentiment. Night before last they organized a McKinley club at Urbana, with 190 members, and last night they organized another at Lafontaine, with 160 members. They are accompanied over the country by the Young Women's Glee Club and by the Wabash Mandolin Club.

### Populists Refuse to Indorse.

Special to the Indianapolis Journal. RENSSELAER, Ind., Sept. 3 .- The Populist congressional convention for the Tenth Indiana district was held at Monon to-day. A desperate effort was made to have the convention indorse the Democratic candidate, but the effort failed and a committee of nine, with F. T. Craig as chairman, was appointed to proceed as they think best for the interest of the party. The meeting was addressed by J. H. Turple, a maverick Remobilish publican.

#### Speech by Charles T. Remy. Special to the Indianapolis Journal.

SEYMOUR, Ind., Sept. 3 .- The Republicans of Vernon township, Jackson county, held their first meeting of the campaign at Crothersville to-night. The largest hall in the town was crowded, and many were turned away. Speeches were made by Hon. Charles F. Remy, candidate for Reporter of Supreme Court, and Hon. O. H. Mont-gomery, of this city. A McKinley club of 125 members was organized

#### THE INDIANAPOLIS CONVENTION. Will Help to Restore Moral Standing to the Democratic Party. Harper's Weekly.

We are therefore sincerely convinced that the Democratic movement represented at Indianapolis will not only not diminish the apport which McKinley would otherwise have received, but greatly strengthen it, and that it will withdraw from Bryan many thousands of votes in all parts of the country, especially in the South, which would otherwise have gone to him.

But the Indianapolis convention will perform another service of equally great im-portance. While belping to put the Republicans in power for a special purpose, it will also save what is worth saving of the Democratic party, and enable it to become that which in a free government always has a great office to perform—a morally and inllectually strong and effective opposition. The Democratic party came out of the civil war under a dark cloud. A majority of the people, in the North at least, sin-cerely doubted whether its patriotism could e trusted. This circumstance not only kept the Democratic party, in the national ense, out of power for nearly a quarter of

a century, but almost fatally impaired its moral standing and its influence as an opposition party. To this weakness of the op-position may be attributed much of the overbearing spirit and of the recklessness of conduct which at that period demoralized the Republican organization. If there were no other Democratic organization in the present contest than that of the Bryanthe outcome would probably be still e disastrous. The Democracy would, more disastrous. even more than after the war, stand before the country as the embodiment of the elements and tendencies most dangerous to the public welfare. The voices of its spokesmen, even when denouncing wrong maintaining truth and justice, would thout authority. The Republicans standard of value. I believe in revolution without authority. The Republicans in and in revolution only and do not give a power might run riot in profligacy and yet overwhelm the opposition by pointing at the recent history of the Democratic party a condition of things unwholesome in the

nighest degree. The organization of the sound-money Democracy changes all this. There is a body of men who have given the most un-questionable proof of self-sacrificing pa-triotism. Nobody doubts the sincerity of their devotion to the principles they pro-fess. These principles have historic presassisted by J. N. There is still intense hostility in Louisiana to the Republican party on account of causes that are the outgrowth of the war. In the younger generation that has grown up since the war this resentment has become somewhat mollified, but with the older element there is still much bitterness. Soon after the Chicago convention many Democrats, especially in the city of New Orleans, declared their purpose to support McKinley, but the ticket nominated here will receive the votes of many Democrats who would otherwise have voted for Bryan. "Will not the sentiment in Louisiana for a protective tariff lead many former Democrats to support the Republican candi-

dates? "No. I do not think it will. The conditions are such that the sugar interests in Louisiana, in my opinion, will never again have the fostering care of a protective tariff. Free sugar is the keystone of the Re-publican tariff policy, and the sentiment of the country is against a sugar bounty. This issue out of the way, Louisiana Democrats engaged in the sugar industry will resume their old affiliations. But a tremendous number of Democrats in Louisiana are opposed to free silver and to the other heresies in the Chicago platform. The Governor of Louisiana is a gold-standard man, but he is identified with the other side because he desires to have the sympathy and support of the State ma-chine, and because, in accordance with a very generally prevalent idea in Louisiana, he thinks the evils of free silver coupled a national Democratic administration would be more tolerable than gold with a Republican President. When the readjustment of party lines comes, however, the silver Democracy of Louisiana will come

Delegates Thoroughly Satisfied with Convention's Work. F. F. Biggs, of Ohio-It is the strongest ticket that could have been nominated. It will have strength in the election equal to

the Bryan ticket. W. F. Harland, of Ohio-I am pleased with the entire work of the convention. I do not know of a thing it did which it ought not to have done, and it omitted

nothing it should have done. John B. Oelkers, of New Jersey-In our State, where the majority has always been on the Democratic side, the new ticket will be very popular. It will get 25 per cent, of the Democratic vote. Another 25 per cent. will go for McKinley and 25 per cent. will not be cast. The people of New Jersey, among them the better class of Democrats, are disgusted with the ring which has been in control there. The Chicago platform was the last straw. The new ticket could not be bettered and the platform is

thoroughly Democratic. Evans Wooilen, of Indiana-There is not a false word, not a cowardly word in the platform. Democracy was never so ade-

quately defined. The ticket is ideal. Winfield S. Proskey, of Florida-Florida is well pleased with the work of the convention. It was our delegation that held out for the bimetallism feature in the platform, and we are glad to know that it was adopted. The people of the South want it

and the candidates will prove very strong. Dr. Hillyer, of Georgia-I am delighted with the ticket. It is eminently the proper one and is strong and will command support. The platform is the best the Democratic party ever adopted.
William F. Smith, of Missouri—The ticket could not be beaten. It is the best selec-tion possible under the circumstances. Vhile I do not predict victory for it, I beieve it will get a large vote. I indorse the platform heartily and think it is the best nade by the party for years.

John L. Inglis, of Florida-I think the ticket the best possible. Cleveland was our first choice, but we are well pleased with

the work of the convention.

Senator T. A. Darby, of Florida—I am thoroughly satisfied. The convention exercised good political judgment both in selecting the ticket and in adopting the platform. I am glad that a man from Illin was nominated for the head of the tick It was there that the standard of Democracy was trailed in the dust, and it is but fitting that it should be an Illinois man who is to raise that true standard again. The selection of Mr. Buckner will unite and harmonize all sections.

M. W. Lovell, of Fiorida—I think the con-

vention nominated the best man after eveland's refusal. F. W. Schultz, of Baltimore, Md.-The cket and platform are entirely satisfactory to Maryland delegates, as Palmer and Buckner were our choice. The platform is, without doubt, the greatest promulgated by any political party for twenty-five years. believe that the ticket will poll a very large vote in Maryland, and it will surely defeat the Populistic candidate, Mr. Bryan. Hon. John DeWit Warner, of New York.—The ticket is absolutely satisfactory. New York is well satisfied with the plat-form. It is fully as satisfactory as the Syracuse platform, in the main essentials. New

form is entirely satisfactory to us. It is an inspiration. The candidates are the ones can work for from early to late. They will prove popular candidates and will poll enough to beat Mr. Bryan. I should think that forty thousand Democrats will sup-port them in Minnesota. I don't think there was ever a platform written that can

beat it. L. L. Hull, Oskalo a, Ia.—Every man in our delegation is satisfied with the candi-dates. The platform cannot be beaten. The delegation stands as a unit upon that proposition and every one is perfectly saisfied It is a better platform than we could have lize their necessity and the importance of fixed up before we came here. nominations are the very ones wanted in our State. They are the best that could have been made under the circumstances. The candidates will get about 20 or 25 per cent, of the Democratic vote of the State, The platform is exactly what we wanted It is the soundest and most perfect platform we have ever had, according to the opinion of our delegation. Pryan is not gosmiled.
"Why," said he, "there is absolutely nothing in it. It is not so. I saw Mr. Hanna myself night before last and he excarry the State unless the ropumsts and Bryan Democrats get together. Edwin Sully, Rockingham, N. C .- The ticket suits us exactly; we could not have gotten a stronger one nor a better one The platform is Democratic from first to last-truly Democratic. The ticket is just what we wanted." Mr. Engler says that the platform is all that any true Democrat can ask and is pleasing Kansas delegates. Marcus Snyder, Spirit Lake, Ia.-Our delgation looks upon it as a strong ticket, I hear a good many remarks that it is too good a ticket to be sacrificed. About the platform? It is perfectly to my liking. I do not see how I could better it if I were to try. The ticket will poll 75,000 votes in Iowa. There is no possibility of the State going for Bryan. McKiniey will carry it by from 50,000 to 75,000.

George W. Thayer, of Grand Rapids, Mich.—Palmer's name was first presented by Michigan and we not unnaturally feel very much gratified at the results of togood a ticket to be sacrificed. About the

very much gratified at the results of to-day's convention. I very much admire General Bragg and was rather inclined to favor his nomination when I first arrived here, but after consulting with others began looking at the question in a different light. Palmer will break the back of that lamnable Altgeldism in Illinois, and that s one of the reasons why we preferred alm. What do I think of the platform platform is what we came here to make and we are satisfied with it. invention was one that it was an honor to participate in. The ticket is going to gain great strength between now and election day. It is going to exert a wonder-fully strong influence. We are here not only for this campaign, but for the future. We are laying anew the foundations of the Democratic party separated from all errors and isms of the day.

George H. Parker, Cullmann, Ala,-What do we think of the ticket? It is our ticket It could not be improved upon in any way of any that has been set forth this year. number of votes that the ticket will get in Alabama is an unknown quantity It depends upon what the Bryan men do If they take Sewall off the ticket, which believe they will do, Alabama will this ticket, because the free-silver Democrats will not vote for Watson and a great many now on the fence will come to the sound-money party. We will poll a very good vote. Between 50 and 60 per cent. of the Democrats of Alabama are for sound money, but we do not expect that they will all vote for our ticket, as it will be hard to induce them to break away from the old organization. We do think there is a very good chance to carry Alabama for this new ticket and that a great many congressional districts will be carried for sound money.

Judge Joseph T. Hoblit, of Lincoln, Ill. There never was a candidate before the people whose life has been purer than that of General Palmer. He is a man of strong intellect, and of happy epigrammatic speech. His war record is without a spot to blombel it and ha is as active in political to blemish it, and he is as active in politics as he was in war. For the past thirty years his life has been under a flerce white light, and not a flaw has been discovered. The party knew that the life of the can-didate selected would be given keen public scrutiny, and they therfore choose Palmer. He is a great home-loving man, and I re-member an incident that will illustrate this which occurred in Springfield, Ill. It was during the time of the Homestead strike when the Pinkerton detectives were taking stringent measures to suppress the riot General Palmer, ir. his speech before the State Democratic convention, said, with reference to the Homestead trouble: "We want a government that is as strong as the law and no stronger. I emphatically object to outside agencies being employed to uphold the law. The law is for our government, and should be upheld by it alone." This was the sentiment of the entire as-sembly, and General Palmer was applauded long and loud for giving it voice.
V. T. Malott—The work of the convention is done and very well done. The platform is conservative and sound. I attended the sessions of the convention yesterday and to-day, and all the speeches I heard were

strong and tempered by the right

spirit.

John P. Irish, of California-The candiin the United States with two exceptions since 1860. I have never seen a con vention representing such deep convictions and desire for the welfare of the country as was manifested here. I want to say for Indianapolis that it is the best convention city I have ever attended a convention in, The welcome extended and the cordiality of your people here is appreciated on all hands. The hall in which the convention was held was not too large, and did not permit an overawing audience, and the convention has been more of a deliberative body on that account than any other one I ever attended, and I but utter the sentiment of the majority of the delegates I have talked to about it when I make this assertion. They feel very glad that it met here. I will say, if you care to put it that way, that Mr. Bryan will lose California by 15,000 majority, and will also fall to carry Oregon and Washington. The ticket will be received with great enthusiasm. J. Frank Beck, of Atlanta, Ga.—Our delegation is entirely in accord with the nomination of the ticket put out and the plat-form as well. We expect in the cities of the State to poll a considerable vote. Our delegation is made up of business men from the cities. We propose to put up a ticket of electors in our State, but as a party we will not antagonize the Populistic and Democratic candidates for State offices that are now out. It is difficult to say what per cent. of the votes will be cast for the new ticket. Our State has 137 counties. Many of them are thinly populated, and it has been impossible to organize. The districts will be organized through the cities. The country population is not with us. Oh. yes: Bryan will carry the State. General ever had. John C. Bullitt, of Philadelphia—Every-body feels good and comfortable over the convention. What more could I say? The

convention speaks for itself.

Judge M. L. Crawford, of Texas—I think
the ticket is admirable. It is the best that could have been selected. The platform's sive than that that could be said of it. man can tell how many votes the ticket will receive in Texas. We must have 65,000 to 70,000 honest-money Democrats. The ticket will be very popular. General Palmer has many friends in Texas. He is held in very high esteem. General Buckner is univer-

sally admired by the people of our State. He Was Out Late the Night Before. There was a gnashing of teeth in the editorial rooms of the Indianapolis newspapers yesterday when it was discovered that the reporters had overlooked the important fact so concisely stated in this opening description of the convention proceedings of

the Chicago Chronicle's young man: "A great beam of golden sunlight poured through a high window in the south wall of the convention hall and streamed across the auditorium from the topmost gallery to the stage, beautiful with golden-rod and palms. It shed a glorious radiance upon the earnest, thoughtful throng gathered there to save their party. It touched the pictures of Democracy's leaders proudly hung above the platform, and, like Midas, turned them to gold. It cast a sheen as of burnished metal upon the great vase of golden-rod just in front of the chairman's desk, and illumined the national colors draping the stage to flashing lines of beau-The golden sunlight was all that was needed in that convention hall when the hour of noon was at hand, the hour for calling into new being the old Democracy. Under its genial influence that magnificent assemblage of all that is best in Democ racy warmed to the utmost kindliness and good humor. It wiped out lines of bitterness and rancor and made everyone feel better for its presence. It traveled slowly across the hall as the sun moved to the meridian and then on toward the west, and it carried with it to every man upon whom its beneficence rested a mellowing influence and wel-

Ex-Governor Flower's Speeches. The Alabama delegation, with its band, escorted the New York delegation to the station last night. Governor Flower made two speeches to the crowd, one before starting and one at the station, in which he commended the enthusiasm shown by the people for the ticket nominated. The ex-Governor was in a very happy frame of mind, and spoke of the battle which was being waged, especially in the State of Ala-bama. Governor Jones, of Alabama, re-sponded in a pleasant vein, and the crowd cheered both speakers hearthy.

Actual Destitution Nearly Always Caused by the Drink Habit. Rev. R. F. Clarke, in North American Review. I believe the experience of everyone who lives and has lived among the poor, whether it be Catholic priest or Protestant clergyman. Sister Catholic priest or Protestant clergyman, Sister of Charity or district visitor, charity organization agent or Brother of St. Vincent de Paul, will bear me out in my conviction that ninetenth, if not ninety-nine hundredths, of the actual destitution among the poor is to be traced, directly or indirectly, to habits of drink. It is not, as a general rule, the drunkard himself who has to pay the heaviest penalty, at least in this world, for his Intemperance. It is too often the helpless wife and the neglected children who have to bear the burden of their father's sin. There is scarcely a city or a town in the whole world from which all abject poverty would not world from which all abject poverty would not practically disappear if the vice of drunkenness could be banished. Of course there are, besides, a number of instances of destitution in no way connected with drink. The sudden death or long illness of the breadwinner of the family will. from time to time, cause a very acute phase of misery and want. The poor helpless mother, with her hungry brood, is as sad a sight as well can be. But such cases are exceptional, and men do not legislate for exceptions. Such needs can do not legislate for exceptions. Such needs can easily be met and are met in every well-organized community, by Christian charity. They are also of their very nature only temporary. Even the poor widow left destitute with half a dozen little ones, if she is at all deserving, is sure to find friends and obtain employment. The princh of poverty may be severe for a time, but in our complex civilization there is work for all whe complex civilization there is work for all who have willing hands and an honest heart. Add to this that the advance of habits of thrift, the increased facilities for insurance, and the growing sense of the duty of providing for such conyes: Bryan will carry the State. General Palmer has always been a friend of the South, and the South has been friendly to him. Of course, General Buckner cannot be but acceptable, as he represents all that we hold dear in the South. Dr. Eben Hillyer, of Rome, one of our delegates, has been a Democrat ever since he voted for Franklin Pierce, and he has carefully studied every platform that the party has promulgated. He says that the platform adopted to-day is the strongest that the party has ever had. labor, or some unforseen sickness or accident, brings with it a lessened energy, and the need of more generous living. It is when the hair begins to grow gray, and the once upright form is bowed by advancing years, that hunger and poverty are most to be dreaded.

## THE RACE PROBLEM.

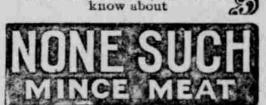

An Interesting Suggestion in Regard to Southern Difficulties. Booker T. Washington, in the Atlantic.

Nothing else so soon brings about right relations between the two races in the South as the industrial progress of the negro. Friction between the races will pass away in proportion as the black man, by reason of his skill, intelligence, and charac-ter, can produce something that the white man wants or respects in the commercial world. This is another reason why at Tuskegee we push the industrial training. We find that as every year we put into a Southern community colored men who can start a brick yard, a saw mill, a tin shop, or a printing office—men who produce some-thing that makes the white man partly dependent upon the negro for something, instead of all the dependence being on other side-a change takes place in the reations of the races. Let us go on for a few more years knitting our business and industrial relation into those of the white man, till a black man gets a mortgage on a white man's house that he can foreclose at will. The white man on whose house the mortgage rests will not try to prevent that negre from voting when he goes to the polls. It is through the dairy farm, the truck gar-den, the trades, and commercial life, largely, that the negro is to find his way to the enjoyment of all his rights. Whether he ects a negro

will or not, a white man resp who owns a two-story brick house.
